

- 
- A graph showing three normal distribution curves on a coordinate system. The x-axis is labeled with -5, 0, 5, and 10. A horizontal dashed line is at the bottom. The curves are: a red curve centered at -5, a blue curve centered at 0, and an orange curve centered at 5. The red and blue curves have a height of approximately 0.4, while the orange curve has a height of approximately 0.2.
- $\mu = 0, \sigma^2 = 1$
 - $\mu = -5, \sigma^2 = 1$
 - $\mu = 5, \sigma^2 = 4$
